Good morning everyone. I just wanted to let you know that I have had a chat with Rick and Mike prior to our call today and I wanted to pass along some additional info. Mainly, that this conference call today is focused on technical issues. Rick and Mike can speak to their experiences with the system while they were responsible for its operation. I now know that they are no longer responsible for the incinerator and that Evonic DeGussa now owns and operates the facility (since 2010). As a result, our discussions are limited to the Eli Lilly operations.

Between Pall and Eli Lilly, several excellent papers and presentations have been provided. Initially, this is exactly what you all were looking for. I hope everyone has had a chance to go through them. In addition, I provided the links to the EPA documents that were produced specific to the alternative monitoring aspects.

I hope this helps.

Jeff
